Call for Papers
Architecture and Mathematics in Palladio’s Century: A Tribute to Carl and Sally Gable
Guest Editor: Stephen R. Wassell, American University of Malta

In 1989 Mr. and Mrs. Carl I. Gable purchased Palladio’s Villa Cornaro, becoming only the sixth family to occupy the villa since its construction in the 1550s. With the sale of the villa in 2017, Carl and Sally have closed a chapter on their Palladian adventure, and this special issue of the NNJ is in honor of their 28 years of truly exemplary stewardship.

Rather than focusing solely on Palladio’s villas, or even on his architecture in general, the theme of this special issue encompasses architecture and mathematics of the 1500s. Topics of interest include:

- Analysis of Palladio’s work, including his treatises;
- Discussion of Palladio’s design theory in relation to the zeitgeist of the cinquecento;
- Sixteenth century architecture and mathematics outside of Italy, even outside of Europe, that can help inform us about Palladio’s influence in subsequent centuries;
- Key figures and ideas of the 1500s, including in the fields of music, astronomy, geometry, perspective, etc., in terms of the relationship between architecture and mathematics.

Guidelines for manuscript preparation can be found on the NNJ website: https://www.nexusjournal.com/for-authors/submission-guidelines.html.

In the ‘Enter Comments’ box as part of the submission process, authors should note that the paper is for the special issue on Architecture and Mathematics in Palladio’s Century

Submission does not guarantee publication; all submissions will be peer-reviewed before being considered for publication. Reviews of appropriate books and exhibits are also welcome.

- Deadline for submissions for review: June 1, 2018.
- Notification of outcome/acceptance: August 1, 2018.
- Deadline for submission of final manuscript: October 1, 2018

Submissions should be made via the NNJ Editorial Manager platform (https://www.editorialmanager.com/nnj/default.aspx).

Authors should also email the Editor of the Special Issue directly to notify of their submission (WassellSR@hollins.edu).

Founded in 1999, the Nexus Network Journal (http://www.springer.com/birkhauser/mathematics/journal/4) is a peer-reviewed journal for researchers, professionals and students engaged in the study of the application of mathematical principles to architectural design. Bibliographic Data – First published in 1999 by Kim Williams Books, since 2007 co-published and distributed by Birkhäuser/Springer Nature – From 2009 (vol. 11) published electronically and in print, 1 volume per year, 3 issues per volume –ISSN 1590-5896 (print) – ISSN 1522-4600 (electronic). 2016 Impact Factor: 0.488. Abstracted/Indexed in: Science Citation Index Expanded (SciSearch), Journal Citation Reports/Science Edition, SCOPUS, Zentralblatt Math, Google Scholar, EBSCO, CSA, ProQuest, Academic OneFile, Arts & Humanities Citation Index, Avery Index to Architectural Publications, Current Contents/Arts and Humanities, Gale, MathEDUC, Mathematical Reviews, OCLC, SCImago, Summon by ProQuest.
